Your monthly news & updates

This time of the year most of us are in our "put the best foot forward" mode. We want to help others, we want to make as many people as happy as we can, we want to knit for others and proudly give out those precious gifts, and we want to wish everyone the best in the new year to come and all years after this one. Seasons Greetings everyone; enjoy the people who surround you; make their lives better just by knowing you because you are special and because you are loved.
