What Is And What Will Be

We have the thunder of the bikes, the humidity from the rain, and on a more positive note, we have yarn, yarn, yarn. Martina is still buying and buying! It's all good, and it's for all of you! Molly took a month off to get her affairs in order; now she's back with some interesting KAL's and classes for you all. We have others that I'll share at the end. And, I'll tell you more about the KAL that uses Whirl.

May 25 – Have you mastered basic knitting? Stay tuned for a new class to learn increases and decreases and how to use them in your knitting!

Molly's Macinations

Cable Class is \$20 for the 2-hour session. This is the perfect class to get you started on cables. I love the Irish Hiking Scarf pattern, and it's repetitive, which makes it the perfect beginner cable project. In this 2-hour class you'll learn a basic cable and then finish the scarf on your own. Pattern and tic sheet will be given out in the class.

Materials:

400 yards of Worsted Yarn– solid or heather– no variegated recommended yarns: Cascade 220, Ultra Alpaca, Encore and many others...size US 8 circular needle

Cable Needle– I prefer wood, but we can get you started using any cable needle. Please purchase any supplies you don't already own, here at Knit-N-Purl.

We took a vote and decided that we loved this garment so much that we are going to knit it again!!! How's that for an endorsement? Since the original yarn we made it with has been discontinued, We've selected Sunseeker from Cascade to use this time, thinking that the subtle metallic thread will be just gorgeous. So join Molly in
