

## April Showers Bring May Flowers!

### Join us for beautiful Spring Projects!

The weather in Myrtle Beach couldn't be better; we even have two Loggerhead turtle nests on the north strand this early in May! We were glad to see so many of you for Local Yarn Store Days; it was one of our best ever! We have so much to be thankful for these days. Everyone is in good health; the sheep, yak, goats, and opossum still have enough hair to share with us so we can knit nonstop if we decide we want to knit around the clock! What more could we ask? Well, there is one thing! That all of you are doing as well. You are important to us, and we hope to see you all soon! The roll of the tide and thunder of the crashing waves waits for you here just two blocks from our shop! Really, what could be better?

## Verdigreen Shawl KAL

Martina will be knitting this beauty June 1st, 15 & 22nd from 11-1pm. She is using a DK weight yarn. Cascade Whirligig and Berroco Vintage DK, 1 skein each. Verdigreen is an eye-catching textured triangle designed for having fun with colour and contrast. The pattern is designed to be interactive, both the straight and mullioned sections are indefinitely repeatable, and the knitter can shift between the two sections to make a unique creation.

The unusual stitch pattern is created by alternating stripes of stockinette and reverse stockinette, overlaid with lines of slipped stitches and mini-cables, creating a dynamic and 3 dimensional filigree effect.

It is ideal for showing off two contrasting or complementary skeins, or try a solid paired with a speckled or gradient for dynamic results.

This design suits heavy fingering to worsted weight yarn in any yardage between approx. 600m and 900m. (Sample used 2 skeins of Gobsmacked Silky Yak.)

The design can be worked entirely from the written pattern, or from charts with some notes.
