Getting the Most Use of Your Interchangeable Needles and Accessories

I love my IC sets and have a few different lines of them. I have also found myself buying extra tips because the size I need are always on a WIP. Did you know that you have so many other options already in your kit?

Knitter's Pride has end caps, and some kits also have needle size markers and cord connectors. Addi kits have a cord connector and have add-on's, like the Heart Stopper. HiyaHiya have cord connectors and Panda caps.

If you need your needle tips for something else, take the tips off and place a Knitter's Pride needle size marker on the cord and put on the caps/stopper. You can also use the cord connectors by placing one end on each of the ends of the cords, creating a circle. I also use this for my stitch holders; no more transferring live stitches onto a stitch holder or scrap piece of yarn again!

If you know your project is going in the time-out bin, use these tools to eliminate broken needles and get them back into your case where they are safe!

What About Those KAL's?

Behind The Scenes Cowl

Molly will lead this Mystery KAL that begins on Thursday, October 5th from 1–2 pm.
